Aspiring Software Developer | Computer Systems Technology Student

Profile

Software Developer with a background in retail leadership and a storyteller's heart. An outgoing and highly organized communicator dedicated to bridge the gap between code and meaningful user experiences. Seeking a Co-op position to deliver intuitive, high-quality solutions while ensuring clarity and momentum throughout the user's journey.

Skills

Technical Skills

- **Programming Languages:** Python, Java, C#, SQL, JavaScript
- **Web Development:** HTML5/CSS3, React, Figma
- **Tools & Systems:** UI/UX Design, GitHub Management, Mobile Web Programming, Windows, MacOS, Unix
- **Other Skills:** RESTful APIs, Object-Oriented Programming (OOP), Data Structures & Algorithms

Transferable Skills

- **Problem Solving:** Applied analytical thinking to resolve complex operational issues and optimize workflow in high-pressure retail environments.
 - **Communication:** Experienced in translating concepts for non-technical customers.
 - **Time Management:** Skilled at prioritizing tasks and meeting deadlines in fast-paced environments.
 - **Collaboration & Teamwork:** Strong focus on working effectively within teams to achieve shared goals.
-

Education

Computer Systems Technology - Software Development Co-op program (Advanced Diploma)

Mohawk College | Hamilton, ON | Expected December 2027

- **Relevant Courses:** HTML & CSS, Data Structures & Algorithms, Mobile Web Programming, Intro to AI Systems, UI/UX Design, and Project Management.

Future Goal: Preparing for Bachelor of Technology (Software Engineering) at McMaster University.

Work Experience

Key Holder Northern Reflections, Hamilton, ON | Sept 2024 – Present

- Friendly service to a variety of people, ensuring high customer satisfaction
- Manage store opening/closing procedures and financial reporting.
- Collaborate with team members to meet daily sales targets and maintain the store.

Key Holder Ever New Melbourne, Hamilton, ON | 2021 – 2024

Promoted to Key Holder within one year due to demonstrated reliability, work ethic, and leadership potential.

- Mentored and trained new team members on POS systems and brand standards, improving onboarding efficiency.
- Resolved customer inquiries under pressure, maintaining professional communication and a positive shopping experience.

Projects

PHP Dungeon Crawler Game | Mohawk College *September – December 2025*

- **Architected a web-based video game** using PHP and MVC patterns to separate data logic from user interface.
- **Integrated an SQL database** using PDO to manage dynamic room data, encounters, and storytelling dialogue.
- **Developed complex orientation logic** to calculate the user's first-person view, dynamically selecting images based on North/South/East/West positioning.
- **Managed game states** via PHP Sessions, allowing multiple users to navigate the dungeon simultaneously without data overlap.
